

**Preparation Questions for June 7<sup>th</sup> B1 Integration Meeting  
Comprehensive Core Standardized Assessment (CCSA) Implementation Strategies**

1. How are practices capturing CCSA information? Paper questionnaire while in waiting room, or tables/iPad while in waiting room or office?
2. Is the CCSA built into your partner's Electronic Medical Record or are some using paper copies and entering into a different field?
3. Who is administering the CCSA? Is it a clinician or a case manager?
4. How do you explain to your B1 partners the importance implementing the CCSA as it relates to whole patient care?
5. How do you administer the CCSA to non-English speakers?
6. How do you approach the CCSA for your pediatric population?
7. What barriers have you identified with the CCSA and how have you overcome these?
8. Which CCSA domains do your partners find the hardest to include as part of their tool due to limited external resources?
9. What are the challenges and successes of CCSA implementation, particularly as it relates to referrals for positive screening results?
10. Are you working with your MCOs in relation to CCSA positive results and referrals?
